Charging the Battery

Connecting and disconnecting the Fast Travel Charger
The battery must be fitted in the phone before the charger is connected. Insert the charger into the Charging Connector and connect the travel charger to the socket-outlet. Then the Battery Level Indicator will start scrolling. It is recommended to charge the battery for a minimum of 4 hours before first use.

NOTE: DO NOT force the connector as this may damage the phone and/or the charger. If the battery has been deeply discharged it may take some time until the charge indicator is displayed.

When charging is complete disconnect the charger from the wall socket before removing the plug from the phone.

Operation of Battery Level Indicator

	While charging	Charging complete
Phone on	▣▮	▭
Phone off	▣▮	▤

NOTE: When the battery is deeply discharged, it may take some time (2 to 3 minutes) until charging starts.

Low Battery Power Warning

When the battery power is low, **Battery Is Low** message will be displayed. If this occurs during conversation, finish your call immediately. The power will automatically switch off after the warning tone. Fully recharge the battery. See "Charging the Battery" on this page. (Calls can be made and received while the phone is charging.)

DTMF Tones

DTMF tones can be sent during conversation. These are often used to access voice mail, paging and computerised home banking. For example, you may need to input a number to access voice mail messages. A phone number may be stored in Phone Book with DTMF tones, allowing the number to be dialled upon recall and the DTMF number to be sent automatically.

Send DTMF Tones During a Call:

Enter digits ($\overset{0}{+}$ ~ $\overset{9}{wxyz}$, $\overset{\#}{P}$, $\overset{*}{}$)

Pause Dial

Using pauses allows you to send DTMF tones automatically.

1 Enter phone number.

2 Press and hold $\overset{0}{+}$ until a **P** is displayed at the end of the phone number entered.

3 Enter DTMF digits after the pause, e.g. enter the number to access voice mail messages.

4 $\searchtodial$

When the call is connected DTMF tones will be sent after 3 seconds.
Incoming Call While in a Call

Shift mode change...
The Shift mode changes by pressing (within 1 sec) ⟨⟨⟩.

Multi tap	Tegic
Abc -> abc -> ABC	T9Abc -> T9abc -> T9ABC -> 123

If Input mode is changed, Shift mode is initialised.

Auto capital change ....
Auto capital affects Abc and T9Abc.

When Input mode is changed to Abc or T9Abc, the first character is input as upper case and subsequent letters as lower case.
When one of the following characters [. (Period) or ! or ?] is input before a space, the next character is input as upper case.

Tegic

User Dictionary of Tegic

When edit mode is finished, all words in the editor are registered in User Dictionary of Tegic.

Text Input

To switch On/Off T9 mode, press ⟨⟨⟩.

T9® Text Input...

Using this mode of text input dramatically reduces the required number of key presses.

Press a key once for any letter you require on that key. The desired letter may not be displayed. Continue pressing other keys until the end of a word is reached; then check that the word has been typed correctly before continuing on to the next word. If the combination of letters typed has produced a word which is not the one you require, press ⬡ repeatedly until the correct word is displayed. Continue to the next word.

    Example of Text Input in T9 Mode

    To type a new message, follow these steps:

    1.At the beginning of a new message press and hold ⬡ (Clear) to delete previous text, if necessary.

    2.Press ⬡ to change letter case, if necessary

    3.Press ②abc ②abc ⑤jkl ⑤jkl "Call" is displayed.

Note that the displayed words change as you type, always type to the end of the word before editing.

T9® Languages can be selected from T9 Input -see "Setting T9 Input" on page 26.

If the word you require is not in the internal dictionary then it should be entered using the Multi tap (ABC) mode.

Other Text Modes..

Select text mode (displayed in Information area on screen).

Multi tap mode (Abc, abc or ABC):

Each time a key is pressed in quick succession it displays the next character available on that key. Releasing the key or pressing another key enters the character displayed. The cursor moves to the next position.

In T9 (Abc) or Multi tap (Abc) mode, the first entered letter in a sentence is in upper case.
